

# Specimens for Your Research

SpecimenRepository.org is data visualization tool with the goal of making specimens available to investigators for new and innovative research.

## SpecimenRepository.org

### ► Data Visualization

Explore available specimens and data through a rich interactive data dashboard.

### ► Over 6 Million Specimens

Specimens in the repositories were collected for large, international clinical trials, with a wide range of demographics.

### ► Network Study Catalog

Learn more about the studies for which specimens were collected and view protocols and schedule of events.

### ► Publications

Review our robust catalog of research already conducted using data from our studies to help guide your own work.

### Participating Networks

Funded by the US Department of Health & Human Services, the National Institutes of Health, the National Institute of Allergy and Infectious Diseases, the Division of AIDS, the AIDS Clinical Trials Group, the HIV Vaccine Trials Network, and the International Maternal Pediatric Adolescent AIDS Clinical Trials Network.
